Operations	Lean / Six Sigma · Standard Work & SOPs · Safety Culture & Compliance · KPI & Workforce Analytics · Multi-Site Launch · Throughput & Quality
Technical	Python · FastAPI · HTMX · JavaScript · SQLite · PowerShell · Self-Hosted AI & Agents · Data Visualization

PROFESSIONAL EXPERIENCE

People Operations Manager Walmart	Jun 2024 — Present
— Lead a 50+ associate team across five departments, coaching supervisors on performance, accountability, and safety in a high-volume environment. — Served as Acting Site Manager for 8 months — owning staffing, scheduling, escalations, safety compliance, and regional leadership reporting through a full leadership vacancy. — Built a leadership bootcamp that promoted 3 hourly Team Leads into Area Managers and cut regional fill time by 50%. — Applied Lean tools to standardize workflows and reduce waste — sustained zero lost-time safety incidents across shifts.	
HR Business Partner II Amazon · Philadelphia Region	Jan 2021 — Jun 2024
— People partner for 500+ associates across the final-mile network — coaching managers, driving performance, and owning regional engagement. — Rebuilt engagement at a struggling delivery station through recognition programs and interactive displays; promoted to lead regional engagement. — Selected twice for the Employee Relations Jump Team (2023); earned the Global Delivery Services Amazon Excellence Award (2024).	
Operations Manager — Fulfillment & Logistics Amazon · Philadelphia Region	Dec 2019 — Jan 2021
— Managed 300+ associates across multi-shift fulfillment operations, applying Lean / Six Sigma to drive throughput and safety. — Supported six delivery station launches across the Philadelphia region — onboarding, culture-setting, and operational standup at scale.	
Operations Leadership FedEx · Greater Philadelphia	Earlier Career
— Built foundational team leadership and logistics operations skills in high-volume, fast-paced delivery environments.	

SELECTED BUILDS

▸ Project Pipeline Dashboard — turns a sprawling planning spreadsheet into a filterable single source of truth; atomic JSON snapshot with one-click rollback. <i>Python · FastAPI · HTMX</i> ▸ Workforce Scheduling Dashboard — self-hosted; replays a workforce-SaaS session into custom reports with keep-alive & graceful fallback. <i>Python · FastAPI</i> ▸ Operations Command Center — real-time single-pane floor ops: live status, exception queues, daily metrics; auto-detects site. <i>Python · Dashboards</i>	▸ Field Quality Audit App — org-wide, zero-install browser auditor; SSO autofill, webcam capture, IndexedDB, human-in-the-loop email. <i>JS · IndexedDB · WebRTC</i> ▸ Warehouse Productivity Analytics — privacy-first aggregate analytics; values hashed, no person/timestamp data persisted. <i>FastAPI · SQLite</i> ▸ Autonomous AI Agent Relay — channel letting two AI coding agents on separate machines coordinate with resume/handoff. <i>Python · Agents</i>
